SIR,

Starting of an Industrial School for Girls at Channapatna.

With reference to your D.O.letter No.D.6037/I&C.237-34-2 dated 12-3-1935 on the above subject, I have the honour to state that the starting of an Industrial School at Channapatna for training Gosha women and girls in Cottage Industries to enable them to earn their livelihood is a very desirable step, but the cost of equipping and maintaining such a School to include all branches of training for women will be high. I therefore propose to start a school with classes similar to what we have in the Home Industries Classes, viz., Toy making, lacquer work and hosiery. The cost involved in starting and running such a school will be Rs 4,360/-; made up of Rs1,000/- for non-recurring and Rs 3,360/-for recurring expenditure as per statement enclosed.

Before the above scheme is given effect to, it is necessary that ladies to be appointed in the School should be trained in the concerned branch of Industrial training to enable them to train the students. I recommend that a scholarship of Rs 20/- may be given for one year to the lady to be appointed as Supervisor to undergo training under the Lady Demonstrator in Bangalore. The other two Instructors may be given a scholarship of Rs 15/- each. Of these two, one will undergo training in toy making and lacquerware in the Industrial School, Channapatna for one year and the other may be selected from among the lady students passing out of the Weaving Institute who may be

be given a further training in hosiery for 3 months. Thus a sum of Rs 465/- will be required to award the three scholarships.

I shall call for applications from lady candidates for the above posts and arrange for their training should these proposals be approved by Government. A grant of Rs 465/-, for granting scholarships will be required during the year 1935-36 and a grant of Rs 4,360/- during 1936-37 for meeting the recurring and non-recurring expenditure of the School.

I have the honour to be,

Sir,

Your most obedient servant,

DIRECTOR.
